2022-2023 School Accountability Report Card
(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/.

- For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/.

- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest	DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).
California School Dashboard	The California School Dashboard (Dashboard) https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.
Internet Access	Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

SCHOOL DESCRIPTION: Located on the Grass Valley Campus of Sierra Community College, Ghidotti is a rural, public early college high school within the Nevada Joint Union High School District. Opened in 2006, and initially supported by a start-up grant from the Bill and Melinda Gates Foundation, Ghidotti is one of 41 early college high school programs in California. We serve students in grades nine through twelve who have the opportunity to earn both a high school and college degree upon graduation. In the past six years, over 90 percent of our students have continued with their college studies at Sierra or have

2023-24 School Description and Mission Statement

matriculated to four-year colleges and universities. By bridging the divide between high school and college, Ghidotti helps students overcome barriers to attending a four-year university.

The mission of Ghidotti Early College High School (GECHS) is to provide a supportive, rigorous learning community through an individualized academic program that makes higher education more accessible to a diverse population that is reflective of the region's demographics. Our program serves historically disadvantaged students, low-income students, first-generation college students, English language learners, and other high school students for whom a smooth transition into post-secondary education can be challenging.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Ghidotti is committed to creating a student-centered, California Standards-aligned curriculum that prepares our students for college and career. We want our students to be engaged and self-motivated learners who persevere through challenges. We want them to read a broad range of complex, high-quality texts; to demonstrate mastery of content knowledge; to value evidence and use it to construct viable arguments; to use appropriate technology or other tools strategically and capably; and to understand diverse perspectives and cultures.

Students take high school level English during their freshman and sophomore years. The English Department's goal is to align all curricula to the State Standards. For example, English teachers have redesigned their lessons to include more close reading of nonfiction texts, including the adoption of two nonfiction books, The Blind Side and Seabiscuit, shorter nonfiction texts that complement the literature curriculum, and pivotal U.S. documents of historical and literary significance like Lincoln's "Gettysburg Address" and King's "Letter from Birmingham Jail." The majority of writing assignments are informational and argumentative essays that require students to analyze their reading as well as research-related topics.

Students take biology as freshmen and chemistry as juniors. Our science department designs lessons that emphasize collaboration and critical thinking through hands-on learning experiences. Lessons include a variety of resources such as current scientific journal articles, scientific notebooks, science-related media, and lab experiments. Students actively work together to apply learned concepts, analyze and use data to support scientific outcomes, effectively problem-solve, and relate their findings to real-world experiences. Students complete close reading assignments in which they summarize the scientific arguments presented in the text, support these summaries with textual evidence, and demonstrate knowledge of domain-specific vocabulary.

All students take world history as sophomores, US history as juniors, and a majority take their required government/economics class through the high school as seniors. The history teacher uses a cross-curricular approach that engages students and helps them develop a wide range of skills. Students convey a deep understanding of texts by connecting them to current events and their own college and career goals. They collaborate to understand primary and secondary sources, inferring the outcome, testing hypotheses, and driving their own research from the evidence provided.

We offer Algebra 1, Geometry, and Algebra 2 through the high school. Courses are taught with texts from CPM (College Preparatory Mathematics), which is based on the California Standards.

Ghidotti curriculum is challenging --crafted to help our students be prepared to succeed in their college classes. Support for struggling students is available—the college tutoring center, small group tutoring and support (learning lab) provided by a school teacher on special assignments, one-on-one tutoring sessions between teacher and student, and a seminar class taught by a highly qualified math teacher.

In addition to high school textbooks, the school provides students with materials required by their college professors.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments
(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement	State Priority: Parental Involvement
	The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Ghidotti engages with families and the community in many ways. To foster student academic success, all teachers use Schoology (learning management system) to provide online grades, calendars, reminders, copies of assignments, progress reports, and individual reports of student academic achievement. All students and parents meet their Freshman and Senior year with the designated college counselor and the high school counselor to create and revise 4-year plans that meet A-G requirements for entrance into four-year colleges. Students meet with the college counselor to update their plan during their Sophomore and Junior year, and parents are invited, but not mandated, to attend. Parents can schedule a meeting to update their plan with the school and college counselors at any time. Parents and students are invited to participate in a Ghidotti and Sierra College Freshman Orientation.

The Ghidotti Site Council, composed of students, staff, and parents, meets monthly to create a yearly Single Site Plan with school improvement goals that promote student success. Ghidotti also has an active parent club that meets monthly to plan fundraisers and support our school. They help fund our biannual college field trips, offer financial support for low socio-economic students, and other academic field trips. They also provide additional academic support as well as food and drink for the senior boards, PSAT breakfast, freshmen orientation picnic, graduation, and various student leadership-sponsored activities such as prom. Contact information for Site Council or Ghidotti PTC can be obtained by calling our school's front office (530-274-5270). We also have robust parent support for our athletic teams, where parents support the teams by being ticket takers, driving students to all away games, and organizing additional athletic events such as rewards nights. The PTC also provides four student scholarships of $500 each.

Student study teams composed of parents, the student, and staff members are set up for any student experiencing difficulties succeeding either academically or on a social/emotional level.

C. Engagement	State Priority: Pupil Engagement

2023-24 School Safety Plan

Ghidotti Early College High School works closely with the Nevada County Office of Education and Sierra Community College to review and revise our safety plan on an annual basis. Our school site council approved our School Site Safety plan on December 4, 2023, and then sent it to the district school board for approval. The school organizes safety training in conjunction with the Director of School Safety Nevada County Superintendent of Schools Office and Sierra College's Safety and Emergency Preparedness Coordinator for both students and staff. Ghidotti's office has a "go bag" to use in case of an emergency which includes a student locator for both high school and college courses.

Fiscal Year 2022-23 Types of Services Funded

Since its inception, Ghidotti has had a summer bridge program, funded by the PTC, for incoming students to help them transition into college classes. The purpose of Summer Bridge is to create an atmosphere where students can see themselves as college students and understand the transition to a collegiate environment and to familiarize students with the social atmosphere and expectations of college. Students tour the Sierra College campus; and meet high school staff and college faculty. New students will meet their mentors and get to know their peers.

Inside core classes, funds are used to elevate the learning experience. Phoenix classes include the Get Focused Stay Focused curriculum focused on 4-year and 10-year plan student plans along with Social Emotional Learning lessons using the BASE curriculum. The LCAP funds professional development time each summer to work on these classes.

Aside from academics, students have access to quite a few different services. We have a STARS therapist on campus one day a week to help students with mental health concerns. During the weekly flex-time schedule, students can join clubs and make connections, participate in rallies, have school assemblies, and do other school culture-building activities. Flex time is also used for our peer mentoring program, where all freshmen are paired with an upperclassman mentor. We also go on biannual college and university field trips funded by the Parent Teacher Club.

Sports have become an important part of Ghidotti. Over the last six years, we've built a program that includes boys' and girls' volleyball and basketball. We plan to expand our program further, including soccer, cross country, and track and field.

Professional Development

For the past few years, professional development has centered on adopting the Common Core State Standards for student academic success. Our staff has attended various workshops on adopting the CCSS held by the district, the county, neighboring counties, and the state. We are also focusing on the NGSS and new social science standards. We're also working with our district PLC trainer to improve PLCs across sites in all disciplines. District-wide PLC days focus on creating common summative assessments and working with teachers.

In addition to academic achievement, Ghidotti staff has taken advantage of professional learning opportunities to create a supportive school culture for both staff and students. We've met over the last three summers to develop the curriculum for our Phoenix courses. Phoenix students develop study skills, explore career options, and research colleges. Also, our counselor/intervention specialist has attended multiple state and national conferences related to her job. The district has also provided training on standards-based grading.

The staff at Ghidotti is a team of learners as well as teachers. We embrace professional development opportunities to ensure that our students are ready to face a quickly changing world.

This table displays the number of school days dedicated to staff development and continuous improvement.
